EXPERIENCE

Freelance Contractor May – July 2026
Freelance Web Developer Noida, India
- Designed and developed a live business website for Creative Cookery Classes, boosting online visibility and increasing organic traffic and inquiries by 85%
- Owned the project end to end requirements gathering, design, development, deployment, and ongoing post-launch support
- Managed direct client communication throughout the engagement, troubleshooting issues and adapting to scope changes in real time

Acmegrade Pvt Ltd June – August 2024
Artificial Intelligence Intern Remote
- Built a rule-based NLP chatbot as part of a structured AI internship, applying text preprocessing and intent-matching to handle user queries
- Completed structured training in AI/ML fundamentals, culminating in a project-based assessment

Nikhil Adhesives Ltd May – June 2024
Marketing Intern Noida, India
- Conducted customer outreach across 150+ inactive accounts, creating a detailed Excel reporting system that helped recover 60% of churned clients
- Created a detailed Excel report to support re-engagement strategy for the marketing team
- Worked with the Atoot Bandhan loyalty program team to support customer retention initiatives

PROJECTS

Creative Cookery Classes | *HTML, CSS, JavaScript* Live Website
- Built a responsive multi-page website for a cooking school to present course offerings, instructor details, and enquiry options
- Implemented searchable course listings, category filters, image carousels, mobile navigation, and WhatsApp enquiry integration
- Focused on clean UI, responsive design, and improved accessibility across desktop and mobile devices

Sign Language Recognition System | *Python, TensorFlow/Keras, OpenCV, NumPy* GitHub
- Developed an AI system to recognize American Sign Language (ASL) hand gestures
- Trained a Convolutional Neural Network (CNN) on the ASL Alphabet dataset consisting of 87000 images under 29 classes.
- Implemented real-time gesture detection using webcam input with OpenCV
- Applied image preprocessing to improve model performance and achieved an accuracy of 75.7%

SecureTech Hub | *FastAPI, HTML, CSS, JavaScript* Live Website | GitHub
- Built a responsive cybersecurity awareness and tech news platform
- Implemented modules explaining common cyber threats and phishing techniques
- Designed responsive UI components and a quiz module for user engagement

Weather App | *Java, XML, OpenWeather API, Android Studio* GitHub
- Developed an Android application for real-time weather monitoring
- Integrated the OpenWeather API to retrieve live weather information
- Displayed temperature, humidity, and wind speed using Java-based data handling

SKILLS

Languages & Frameworks: Python, JavaScript, HTML, CSS, XML, FastAPI, Flask, TensorFlow, OpenCV, SQL, SQLite

Tools: AWS, Git, GitHub, Android Studio, Google Colab, Power BI

Core Strengths: Technical troubleshooting, Client communication, Issue Diagnosis & Resolution, Adaptability

EDUCATION

Amity University 2023 – 2026
Bachelor of Computer Application Noida, Uttar Pradesh
